647-766-1469 | [m6begum@uwaterloo.ca](mailto:m6begum@uwaterloo.ca) | <https://www.linkedin.com/in/muhana-begum> | [www.github.com/muhanabegum](https://www.github.com/muhanabegum)

## SKILLS

**Languages:** C++, Python, JavaScript, SQL, PHP, HTML, CSS

**Tools:** Power BI, Bootstrap, Vue.js, Excel

**Design:** Figma, InVision Studio, AutoCAD, Adobe XD

## EXPERIENCE

### Systems Database Analyst • Ryerson University

*May 2020 – Aug 2020, Toronto ON*

- Collected data within database systems and created new dashboards for analytics and insights in Excel for faculty administration and the Dean of Engineering to use on a weekly basis
- Integrated information environments together and automated tasks in Salesforce using Apex, flows and processes to decrease event management and data collection responsibilities by 90%

### Student Intern • Nemetz (S/A) & Associates

*July 2018 – Aug 2018, Toronto ON*

- Demonstrated thorough design and technical proficiency with AutoCAD by simplifying electrical layout drafts and modelling mechanical components for company publications
- Completed and filed field reports, technical reports, and administrative tasks using MS Word & Excel to be published internally and externally for client review

## PROJECTS

### Personal Web Portfolio • <http://www.muhanabegum.me/>

- Developed a personal website and used Bootstrap, jQuery and AOS to increase interactivity and design
- Applied color theory, typography and modern web trends to enhance user experience

### Data Analyst Job Market Dashboard • <https://data-analyst-jobs.herokuapp.com/>

- Analyzed and interpreted a csv file with Python to generate analytics in a Jupyter Notebook
- Incorporated the analytics into Streamlit to create an interactive web application to showcase data for users

### Study Session Review Tracker • <https://review-topics-tracker.netlify.app/>

- Used Vue.js and CSS to create a website with different components for easy editing and style
- Designed the web app with appropriate colors and layout for user simplicity and functionality

### Thoughtful Opinions Web Page • <http://www.muhanabegum.me/opinions-page/>

- Generated randomly displayed quotes on an aesthetic user interface by using the Quote Garden API
- Implemented JavaScript functions for users to easily record and visualize their likes, dislikes and progress

## EDUCATION

### Bachelor of Applied Science – Honours Electrical Engineering • University of Waterloo

*Sep 2019 – May 2024, Waterloo ON*
